INTRODUCTION

This report covers the calendar year 1987. The first section estimates the out-of-province shipments of agricultural products while the following section estimates the value of out-of-country exports by importing country.

SOURCES AND METHODS

Out of province shipments, as used in this report, includes shipments to other provinces as well as out-of-country exports. The methodology employed in estimating out-of-province shipments called for data from various sources, including industry*. Certain commodities have been aggregated to maintain the confidentiality of the industry, while every effort has been made to maintain the same commodity listing as used by Statistics Canada.

The primary sources of data for out-of-country exports were Statistics Canada Catalogues 65-003 (Exports by Countries) and 65-004 (Exports by Commodities), supplemented with provincial level information from the Alberta Bureau of Statistics and other Statistics Canada publications.

A number of adjustments and revisions were made to Statistics Canada's exports by province of lading data to arrive at estimated Alberta exports as reported in this publication. These adjustments were necessary to overcome inadequacies in the province-of-lading concept which, in some cases, does not provide accurate export information by province of origin. This is especially true for exports from a landlocked province such as Alberta. The information necessary to adjust Statistics Canada data for Alberta exports was gathered from many sources within Alberta Agriculture, other government departments and industry.

OUT-OF-PROVINCE SHIPMENTS

The estimated value of out-of-province shipments for 1987 was \$2,842 million which represented a slight decline over the \$2,851 million 1986 estimate.

Grains and oilseeds accounted for 39 per cent of the total value of shipments which was similar to the per cent estimate of 1986. Meat and animal products accounted for 37 per cent of the value of shipments while live animals made up a further 10 per cent of the total. Forage seeds, other crops and crop products represented 12 per cent of the total value of shipments.

OUT-OF-COUNTRY-EXPORTS

Highlights

The value of out-of-country exports of primary and processed agricultural products in 1987 was \$1,821 million or 64 per cent of out-of-province shipments. This represented an increase over 1986 which saw out-of-country exports of \$1,663 million or 57 per cent of out-of-province shipments.

The corresponding out-of-country export value for Canadian exports was \$9,603 million, a 6 per cent rise over the previous year's value of \$9,042 million. Alberta's share of Canadian agricultural exports was approximately 19 per cent.

Wheat exports, valued at \$677 million, continue to be the major agricultural export earner for the province accounting for 37 per cent of export revenues. This is a significant increase over 1986 which saw wheat exports valued at \$589 million.

Canola and canola products contributed 17 per cent of export earnings with a value of \$309 million. This was an increase from \$268 million in 1986.

Alberta barley exports were \$195 million in 1987, representing 11 per cent of agricultural exports. This was a drop from 1986 levels due to significant declines in barley volumes and prices during the year.

Lower world prices for grains and oilseeds throughout 1987, rather than dwindling markets, was the major factor limiting export earnings from these crops.

Live animal exports from Alberta (primarily cattle and hogs) were valued at \$127 million in 1987. This was below the 1984 record of \$138 million but above the \$115 million for 1986.

Meats and meat preparations showed a substantial increase over the previous year. In 1986, the value was \$175 million. In 1987, this figure rose to \$205 million or 11 per cent of total export earnings for the province.

Together, live animals and meats contributed \$332 million, a 12 per cent increase over \$296 million for 1986.

Canola oil showed a drop in export value, largely due to depressed prices. In 1987, exports were valued at \$60 million, compared with \$72 million in 1986. Canola meal showed a significant increase in value in 1987 to over \$56 million from the previous \$30 million.

Honey exports were close to \$4 million in 1987, down from \$5 million in 1986 and \$6.5 million in 1985.

Other important Alberta agricultural exports in 1987 were cattle hides, whiskey, malts, peat moss, tallow, forage seed, semen and embryos.

TRADING PARTNER ANALYSIS

In 1987, Alberta's most important export markets were the U.S.A., Japan, People's Republic of China, U.S.S.R., Saudi Arabia, South Korea, Taiwan, Mexico and Brazil. These ten nations purchased almost 80 per cent of Alberta's agricultural exports.

U.S.A.

The U.S.A. was the major market for Alberta agricultural exports in 1987, purchasing a wide variety of primary and processed products from the province. Exports to the U.S.A. were over \$440 million in 1987, up substantially from \$372 million in 1986. Increases in shipments of livestock, meats and canola products were largely responsible for the increase in export value.

A rise in cattle exports was a primary factor in the 6 per cent increase in live animal exports. Swine exports to the U.S.A. dropped slightly in 1987, but were more than offset by an increase in live hog shipments. Meat and meat preparations, valued at \$148 million, were 15 per cent above 1986 levels and remained the largest export category to the U.S.A.

Other agricultural commodities that enjoyed success in the U.S. market in 1987 included forage seeds, canola meal, peat moss and canola oil.

Low global grain prices in 1987 highlighted the importance of the U.S. market in that the declines due to low grain prices did not affect the value of exports to the U.S.A. Continued growth in exports from Alberta to the U.S.A. illustrate the degree to which Alberta products are being accepted in the North American market.

JAPAN

Japan imported over \$354 million of food and agricultural products from Alberta, down marginally from 1986 levels. Canola, the largest single agricultural import from the province, was valued at \$146 million. Barley declined to \$31 million. A slight increase in the amount of wheat exported from the province was realized but due to low grain prices, the export volume dropped to \$60 million.

Japan continues to be a reliable market for meats, barley malt, dehydrated alfalfa, hides and canola products.

PEOPLE'S REPUBLIC OF CHINA

Alberta's exports of agricultural commodities to the People's Republic of China increased from \$96 million in 1986 to \$173 million in 1987, largely due to an increase in wheat shipments. The value of exports of wheat from the province rose from \$79 million in 1986 to \$151 million in 1987, almost a two-fold increase. As in 1986, China purchased \$12 million of barley in 1987.

U.S.S.R.

U.S.S.R. imports of Alberta agricultural products totalled over \$161 million in 1987, a 32 per cent drop from the previous year. Exports of barley to the Soviet Union declined to \$26 million in 1987, while wheat values fell to \$134 million.

SAUDI ARABIA

Saudi Arabia substantially increased their purchases of Alberta barley. In 1987, the value of barley imports almost doubled to reach \$68 million despite decreases in price.

SOUTH KOREA

Total agricultural and food exports from the province to South Korea were \$60 million in 1987, a 67 per cent increase over \$36 million in 1986. Both the values of wheat and raw hides and skins almost doubled from 1986 levels to reach \$33 million and \$22 million, respectively.

TAIWAN

The major Alberta commodity exported to Taiwan was hides and fur skins which was up 29 per cent from 1986 levels to \$36 million. Total exports from the province were \$46 million, including wheat, barley and canola meal.

E.E.C. AND OTHER WESTERN EUROPE

Exports to Western Europe increased by 6 per cent in 1987 to \$133 million, representing 7.3 per cent of the Alberta total. Primary commodities shipped to this region include grains and meats.

EASTERN EUROPE (excluding U.S.S.R.)

Exports to Eastern European nations, other than the U.S.S.R., were \$24 million in 1987, down from \$62 million a year earlier due to a decline in grain imports from Alberta. This accounts for 13 per cent of provincial exports.

MIDDLE EAST (excluding Saudi Arabia)

Exports from Alberta to the Middle East increased by 63 per cent in 1987 to over \$65 million, mainly on the strength of increased wheat sales to Iran.

AFRICA

Alberta exports to Africa declined by 13 per cent in 1987 to \$46 million, mainly due to a drop in volumes and prices of wheat.

ASIA-PACIFIC (excluding Japan, P.R. China, S. Korea and Taiwan)

Exports to countries in this region were estimated to be \$96 million, a 16 per cent increase over 1986. Increases in shipments of canola, canola products and wheat were largely responsible for the change.

SOUTH AMERICA

Exports from Alberta to South American nations rose to \$71 million in 1987 from \$52 million the previous year, primarily from increases in wheat and barley exports.

CENTRAL AMERICA AND THE CARIBBEAN

Exports to this region increased to \$89 million in 1987 from \$72 million in 1986. A \$24 million rise in canola exports to Mexico was a major factor.

SUMMARY

In 1987, Alberta agricultural exports to the U.S.A. increased again, making the U.S.A. the most important export market for the province, both in terms of dollar value and variety. Consequently, exports do not suffer from the variability that is more evident with shipments to countries such as the Soviet Union, Japan and China whose imports depend substantially on supplies and prices of grains and oilseeds.

COMMODITY ANALYSIS

The five major commodities or commodity groups, accounting for about 77 per cent of Alberta's agricultural export sales in 1987, were wheat (37 per cent), meats (11 per cent), barley (11 per cent), canola (10.5 per cent), and live animals (7 per cent).

WHEAT

Wheat accounted for over one-third of the value of exports originating in the province which was similar to the ratio in 1986. The major customers for Alberta wheat were the People's Republic of China, U.S.S.R., Japan, Cuba, South Korea, Brazil and Iraq. In 1987, China increased her imports of wheat substantially, becoming the province's most important market with 22 per cent (\$151 million) of our wheat exports. The U.S.S.R. took a further 20 per cent (\$134 million) while Japan accounted for 9 per cent (\$60 million). Others included Cuba (6 per cent), South Korea (5 per cent), Brazil (4 per cent), and Iraq (3 per cent).

In 1987, it is estimated that 4.7 million tonnes of wheat were exported from the province for a total value of \$677 million.

BARLEY

In 1987, Saudi Arabia increased its level of barley purchases substantially. Valued at over \$67 million, Saudi Arabian imports of Alberta barley increased two-fold over the previous calendar year. Japan also purchased substantial amounts of barley as did the U.S.S.R., China and U.S.A. In total, exports of barley from the province were \$195 million compared to \$248 million for 1986. The quantity reduction is not as drastic, with 2.3 million tonnes exported in 1987 versus 2.6 million the previous year.

CANOLA

Japan is the dominant purchaser of Alberta canola with an increase in purchases from 553 thousand tonnes in 1986 to 601 thousand tonnes in 1987. However, because of the depressed global situation for oilseeds, the export value to Japan dropped slightly. With purchases amounting to \$146 million, Japan accounted for 76 per cent of provincial canola exports. Mexico took a further 18 per cent and the Netherlands 1.5 per cent.

CANOLA OIL AND MEAL

Exports of canola products in 1987 amounted to \$102 million or no change from the year before. India accounted for over 13 per cent of the value of canola product exports. Japan imported 20 per cent and the U.S.A. took 27 per cent, mainly due to an increase in canola meal exports.

LIVESTOCK, MEAT AND ANIMAL PRODUCTS

The U.S.A. continued to be the dominant market for live animals and meat products in 1987. Of the live animal exports, 98 per cent went to the U.S.A., who also had 72 per cent of the meat exports. Primarily, the U.S.A. imported beef and pork while horse meat exports went to Europe and Japan.

SUMMARY

Although export volumes for the grains and oilseeds increased in 1987, the decline in price levels resulted in lower values for export. If grains and oilseed prices improve in the near term, total export values should improve significantly in the coming years.

REGIONAL ANALYSIS

In 1987, Asia imported \$729 million or 40 per cent of the total provincial agricultural exports. The bulk of these purchases were grains, oilseeds and related products.

North America (U.S.A., Greenland, St. Pierre-Miq.) imported \$440 million or 24 per cent, much of it livestock and meat related.

Eastern Europe was the third largest importing region for Alberta's agricultural commodities with purchases of \$185 million (10 per cent). The majority of these exports were accounted for by wheat exports to the U.S.S.R.

Exports to Western Europe were valued at \$133 million or 7 per cent, consisting mainly of wheat, barley and meat.

The Middle East purchased \$132 million (7 per cent) of Alberta's agricultural exports in 1987. These were mainly wheat and barley.

Central America, with imports of mainly wheat and canola, accounted for 5 per cent of provincial exports with \$89 million.

Exports to South America were almost 4 per cent or \$71 million, and consisted mainly of wheat and canola oil.

Africa imported \$46 million (2.5 per cent) worth of Alberta products, consisting mostly of wheat and wheat flour.

ESTIMATED OUT-OF-PROVINCE

SHIPMENTS

1987
